We invite you to tour this resort style home to give you a true feel for waterfront living in Paradise. This one-of-a-kind home was built to take full advantage of some of the most amazing views in Southwest Florida. Oversized windows and doors offer magnificent views from all 3 floors. 2134 SW 51st Street, in beautiful Southwest Cape Coral

This custom built home reflects one of our most popular floor plans – The 2011 Home of The Year - with a twist! The 2nd floor adds flexibility allowing you to create a 2nd master suite, a game room for the kids, or an expanded office. The owners chose to expand the lanai for additional entertaining space, create an infinity-edge pool, and summer kitchen to enjoy outdoor living all year-round!
